Consent for treatment

I understand that the clinic is classed as a healthcare setting and is Covid Secure using government recommended infection control measures, including PPE.

However, because my treatment involves close proximity for a period of time, I understand there may theoretically be a small increase in risk of disease transmission.

I understand the current practice safeguards in relation to the Covid-19 virus and have had a chance to ask questions. I understand that we will both need to wear masks during treatment.

I understand the possible risks associated with acupuncture as a therapy.

I consent to acupuncture treatment from Gordon Peck as well as massage, heating of points and cupping if needed.
